## MA335K — WIRING DEVICES AND SUPPLIES (SHIPMENTS)

### DEFINITIONS AND SPECIAL INSTRUCTIONS

#### 1. Scope of survey

This survey covers manufacturers of wiring devices and supplies in the United States.

#### 2. Figures to be reported

Companies with more than one establishment manufacturing the products covered by this survey are requested to complete a separate report form for each location. If you have not received a separate form for each of your establishments, please call the contact shown on the report form or write to the U.S. Census Bureau for additional forms.

##### a. Shipments

Report in these columns the quantity and selling value, f.o.b. plant, of all products made in this establishment which were physically shipped from this establishment during the year. Report quantity in thousands of units except where otherwise specified. Report value in thousands of dollars.

Include products shipped on consignment, whether or not sold at the end of the year. Deduct returned goods.

Report the quantity and value of all of the products manufactured by this establishment and shipped during the report year. Include "private brand" units made by you for sale to other companies as well as your own company brand units. Do not include products purchased by you for resale without further manufacture or assembly into other products.

For value of shipments, report the net selling value, f.o.b. plant, of your total shipments of each product listed. The reported figures should represent values, f.o.b. plant, after discounts and allowances and should not include freight charges or excise taxes. If freight charges are prepaid by you, deduct these charges from the values reported for each product. Estimate if necessary.

Include products transferred to other establishments by your company (such as other manufacturing plants or separate sales branches). Their "value" should be the nearest approximation to the commercial selling value, f.o.b. plant, and not the cost of production.

##### b. Columnar structure of report

When entering your figures on the original report, please be sure to report the information in the correct columns. These are:

*Column 1* — Quantity in thousands of units unless otherwise specified

*Column 2* — Value in thousands of dollars

#### 3. Definitions

The product detail for this survey, as shown in the Reference List, is defined according to standard nomenclature for this industry.

#### 4. Comparability

Data reported in this survey should correspond to data reported in the Annual Survey of Manufactures form. The sum of values for item codes shown in column (a) should correspond to dollar values reported under product class codes indicated in column (b) below.

Current Industrial Reports (Form MA335K)	Annual Survey of Manufactures
Item codes (a)	Product class codes (b)
3001 through 3027	335931A
3115 through 3136	3359315
3182 through 3189	3359319
4112 through 4119	3359321
4202 through 4262	3359323
4332 through 4369	3359326

FORM <b>MA335K</b>		
<b>WIRING DEVICES AND SUPPLIES (SHIPMENTS)</b>		
Product code	Item code	Item description
		Current-carrying wiring devices, lampholders, power outlets, precious metal, attachments, plug caps, connector bodies, lightning arrestors, and other miscellaneous current-carrying wiring devices
335931A101	<b>3001</b>	Lampholders, incandescent, all types
335931A154	<b>3003</b>	All other lampholders, including cold cathode neon, slimline, recessed double contact, bases for quartz lamps, and all other fluorescent, including but not limited to circline, panelscent, and starter holders.
335931A103	<b>3005</b>	Receptacle without ground fault interruption capability, 2-pole, 3-wire and up outlets (flush), locking and nonlocking, all amperes
335391A105	<b>3007</b>	All other receptacles without ground fault interruption capability, including dust and explosion proof, ground fault, appliance and special applications, surface outlets, and 2-pole/2-wire
335931A107	<b>3009</b>	Metal contacts, precious and other
335931A109	<b>3011</b>	Attachment plug caps and flanged outlets, including motor bases, all types, including fused, fuseless, switch, and switchless
335931A110	<b>3013</b>	Connector bodies and flanged outlets, all types, all amperes
335931A111	<b>3015</b>	General purpose, 120 volts and over, 20 amperes and over, attachment plug caps
335931A112	<b>3017</b>	All other pin and sleeve, including convenience and power outlets, connector bodies, dust and explosion proof, 20 amperes types, etc.
335931A115	<b>3021</b>	Terminal blocks
335931A117	<b>3023</b>	Lightning arrestors for alternating current power transmission and distribution systems and substations; U.S. designation
335931A119	<b>3025</b>	Electric harnesses and assemblies, excluding engine harnesses (from purchased wire)
335931A121	<b>3033</b>	All other miscellaneous current-carrying wiring devices
<b>335931A</b>	<b>3099</b>	<b>Total, Current-carrying wiring devices, lampholders, power outlets, precious metal, attachments, plug caps, connector bodies, lightning arrestors, and other miscellaneous current-carrying wiring devices (Sum of item codes 3001–3033)</b>
